DREAMT IN LONDON, MADE IN ITALY

11 BRUTON ST, MAYFAIR, LONDON, W1J 6PY

ABOUT US

We are a leading manufacturer of custom-made, high quality furniture and lighting. We pride ourselves on our tailored service; creating bespoke pieces that adhere to our clients' specifications.

Within our group we operate two distinct divisions, The House of Luxury Interiors that caters for the most discerning clients in the world and H Contemporary, which delivers quality without compromise on a larger scale and with shorter turnaround times.

The House of Luxury Interiors offers exceptional attention to detail and an unparalleled level of finish using only the highest quality materials in every aspect of our bespoke creations. Recent projects include Royal Atlantis Residences with Accouter Design.

H Contemporary, through extensive research, investment and development, as well as value engineering, can achieve the same finish and aesthetic on a larger scale and within a time efficient turnaround without compromising quality. This engineering enables us to create bespoke furniture starting from your initial concept to completion and delivery in less than 8 weeks.

All our products are hand made and we work with some of the finest craftsmen from across the world. 'Dreamt in London | Made in Italy', our main factory based in Milan also facilitates accessible shipping options worldwide.

With a dedicated department for the shop drawings and specialist finishes to assist the client's vision in becoming a reality, alongside ensuring that all projects are managed to a high standard from inception to completion, our team understands and executes all the requirements of clients and interior design firms.

FIRST STAGE:

INITIAL CONSULTATION

The first step of our project process is to have a conversation to gain an initial understanding of your furniture requirements. Based on this we would make an appointment to visit you at your convenience to discuss design ideas in more detail.

Our first meeting gives us the chance to discuss your furniture ideas. Our in house team will then create working drawings.

House of Luxury Interiors prides itself on a quick efficient service - precise final design concepts are turned around in days and not weeks.

When you are completely satisfied with the design a deposit is requested to commence manufacturing.

“House of Luxury Interiors have been an incredible partner and given wonderful support through the past 6 years.

They have shown impeccable work and dedication through the Chelsea Barracks, Portland place penthouse project and many others.

We look forward to continue work with them.”.

SECOND STAGE: MANUFACTURE

Great care is taken by our skilled craftsmen to insure only the best materials are used in combination with the latest machinery to create your bespoke design. Manufacturing timescales of items averages 8-12 weeks depending on complexity and volume of orders.

*“We have developed a great working relationship
with House of Luxury Interiors.*

*The commitment to their clients has proved invaluable in
delivering our projects. We appreciate their attention to
detail and creative approach in bringing our visions to life”.*

THIRD STAGE: INSTALLATION

A delivery date is scheduled at your convenience and our installation team ensures work is carried out efficiently, on time, and with minimum disruption to your daily routines. The House of Luxury Interiors recognizes this stage as an instrumental part of the process and will always leave your project in a tidy and considerate manner.

“From the design scope to the engineering and the manufacturing, everything was flawless and all the joinery and furniture was installed perfectly”.

Bespoke furniture & upholstery

LONDON PROPERTY - Mayfair

Bespoke furniture & upholstery

All metal work is all brass and bronze, handmade in Italy

LONDON PROPERTY - St. John's Wood

Bespoke furniture

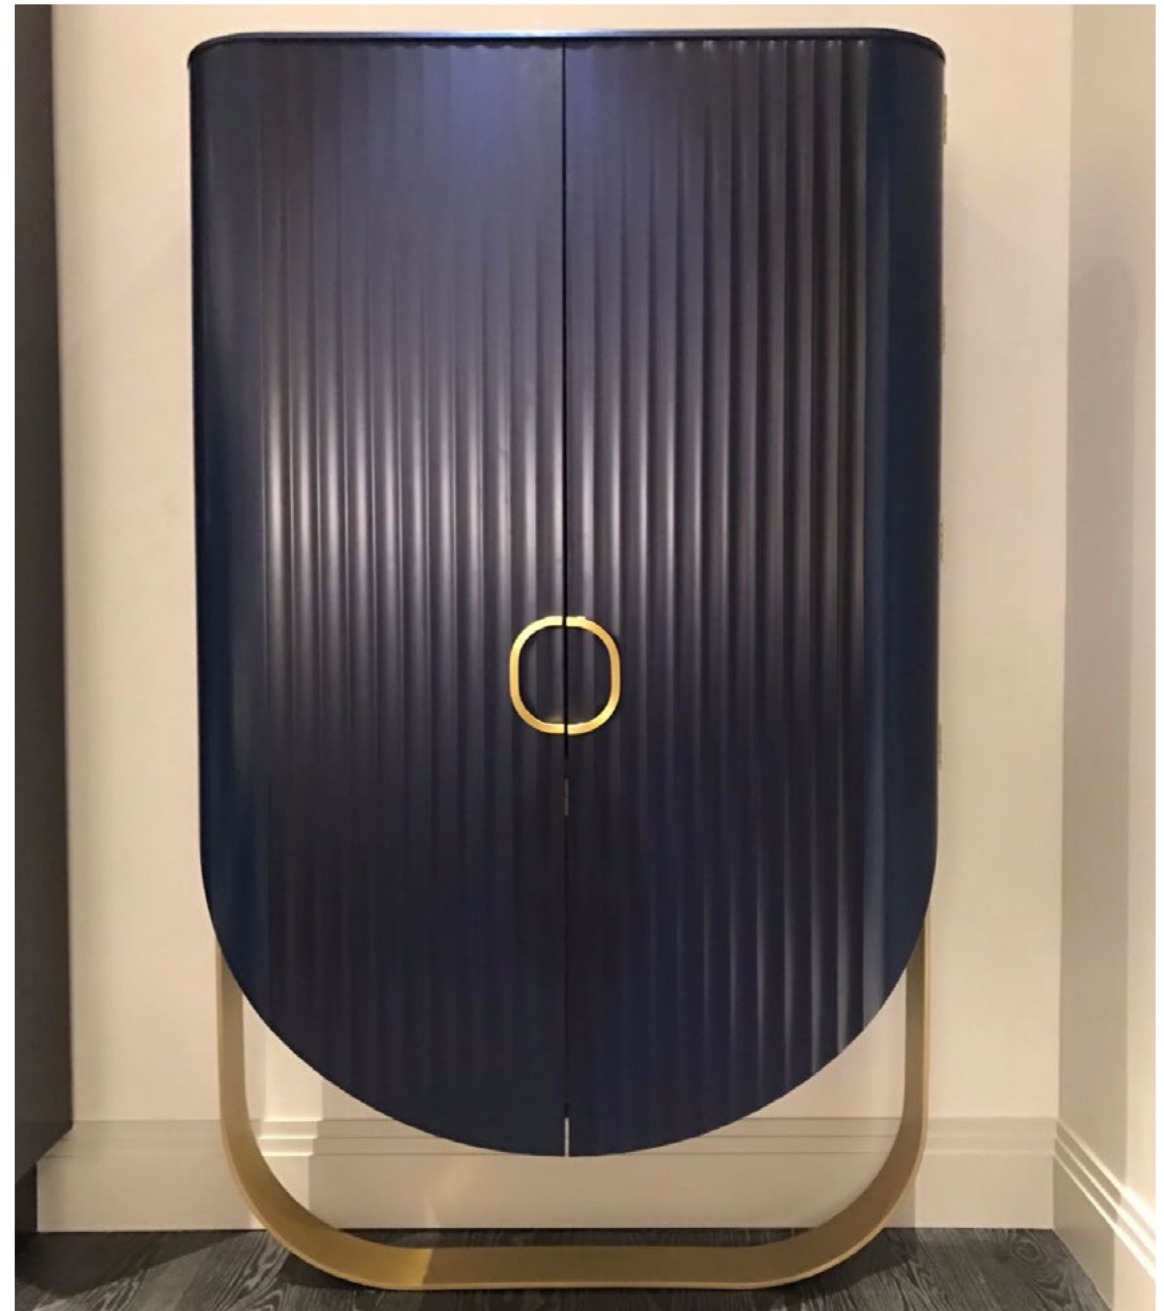

Living room sideboard - Combining natural white onyx with high gloss burnished veneers and brass inlays we have created a statement piece that sits within a space and compliments bespoke joinery and the clients existing artwork.

Bench with brass detail

Bedsides tables with bespoke veneer and rose gold detailing.

A bespoke freestanding bar cabinet taking inspiration from art deco forms and implemented in a modern way. Using a combination of stained veneers, lacquers, bespoke brass ironmongery and leather lined shelves we were able to create a unique piece designed around the clients existing glassware and exacting standards.

A tailored daybed created to compliment the blue hues within the clients living area.
